RE: Weather Normalization Report - Case No. 2000-00080

Dear Ms. O'Donnell:

Pursuant to the Commission's Order in Case No. 2000-00080, dated September 27, 2000, Louisville Gas and Electric files an original and four copies of the report on the experimental weather normalization adjustment (WNA) for the period November 2005 through April 2006. In 2003, the WNA program was extended through April 30, 2006 by Commission Order in Case No. 2003-00357 dated October 30, 2003. In 2004, the WNA adjustment was expanded to include November. This report provides data that was required by the Commission in Appendix B to its order dated September 27, 2000.

The report demonstrates that LG&E billed customers a total of \$2,742,231 under the WNA during the period November 2005 through April 2006. This billing was due to the fact that actual heating degree days during the period were less than normal heating degree days.

If you have any questions regarding this filing, please contact me at (502) 627-3324 or Mary Gillespie at (502) 627-2429.

Sincerely,

Robert M. Conroy

An experimental weather normalization adjustment was implemented for Louisville Gas and Electric by Order in Case No. 2000-00080 dated September 27, 2000. This program was continued and expanded in 2004 to include a five month period from November through April. The following report summarizes the results of that program for the period of November 2005 through April 2006. The specific items requested by the Commission in Appendix B of the September 2000 Order are outlined in tabular form below.
